How to find a physician

Now that you are a UnitedHealthcare member, the quickest way to find a doctor or other health care professional in our network is right where you are – myuhc.com®.

1. Click on *"Find a Doctor"*

2. Once you're on the *"Find Physicians & Facilities"* page, select *"Find Physician or Facility"*, then *"Search for a Physician"*

3. Choose if you would like to search for a doctor by **specialty and/or name, condition or procedure, or quality programs**

4. Complete the form to define your needs and then click on the *"Continue"* button at the bottom of the page

Plus, you can get background information on doctors, driving directions to get to a doctor, hospital or other health care professional in your network.

You can even find out which doctors are recognized in the UnitedHealth Premium® designation program, an informational tool that highlights physicians by quality standards in their specialty.

Now that you are a UnitedHealthcare member, you can come to myuhc.com for all your health care information, including finding a doctor or hospital in your specific network.
