## No Cost Will Preparedness Service

### Protect Your Family, Safeguard Your Assets, Make Sure Your Wishes Are Carried Out

EstateGuidance® is a new member benefit that offers you the ease and simplicity of online will preparation—at no cost! Wills are perhaps the most important legal documents for you to have. Without them, the courts—and not you—make important decisions regarding your assets, your children and even whether you should receive artificial life support. With EstateGuidance you can create two important types of wills to ensure that all your wishes are carried out:

- › A will, also known as a simple will, ensures that you control who gets your property and other financial assets, who will be the guardian of your children, and who will manage your estate.
- › A living will makes certain that your wishes are followed while you are alive but unable to communicate, such as whether you want artificial life support, if you become terminally ill or are in an irreversible coma or vegetative state.
- › Creating your will is easy. Just go to [estateguidance.com](http://estateguidance.com), enter your special promotional code, click on Get Started and sign in. An intelligent online questionnaire will guide you through the process. Both the simple will and living will can be completed online and downloaded to your computer. In addition, you will receive instructions about how to execute your wills and store them.
