## Welcome! Cigna will soon be managing your pharmacy benefits. Please read this letter to learn about your new plan.

Starting January 1, 2023, Cigna will manage HelloFresh's pharmacy benefits. We look forward to helping you with your health and prescription medication needs. We want to share some important coverage information so you'll be ready when your new plan starts. If you have any questions after reading this letter, please call us. We're here to help.

### Your new ID card is on the way. Be sure to check your mailbox.

**On January 1<sup>st</sup>, please replace your current ID card with your new Cigna ID card.** Be sure to use your new Cigna ID card every time you fill a prescription.

### Use the myCigna<sup>®</sup> App and myCigna.com<sup>®</sup>. Its 24/7 access to your coverage info.

As of January 1<sup>st</sup>, you can create an account on **myCigna.com**<sup>1</sup> and/or download the **myCigna** mobile App.<sup>2</sup>

- Manage, track, order, and pay for your home delivery prescription orders online.
- See which medications your plan covers.
- Use the Price a Medication tool to find out how much your medication costs, and view lower-cost alternatives (if available).<sup>3</sup>
- Access your Cigna ID card and/or download and print a temporary card.
- Find an in-network pharmacy.
- See your pharmacy claims and coverage details.

### Your new drug list is called the Cigna National Preferred 3-Tier Prescription Drug List.

Covered medications are divided into tiers or cost-share levels. Typically, the higher the tier, the more you'll pay out-of-pocket to fill the medication.

- **Tier 1 (\$)** – Typically generics (*lowest-cost medications*)
- **Tier 2 (\$\$)** – Typically preferred brands (*medium-cost medications*)
- **Tier 3 (\$\$\$)** – Typically non-preferred brands (*highest-cost medications*)

### Go online to see how your new plan covers your medications:

- **Before January 1<sup>st</sup>:** Go to **Cigna.com/druglist** and select "National Preferred 3 Tier" from the dropdown list.
- **Starting January 1<sup>st</sup>:** Log in to the **myCigna** App or **myCigna.com**. Click on the Prescriptions tab, and then choose Price a Medication from the dropdown menu.

### Some medications on Cigna's drug list have extra coverage requirements.

This helps to make sure you're getting coverage for the right medication, at the right cost, in the right amount, and for the right situation.

- **Prior Authorization.** Certain medications need approval from Cigna before your plan will cover them.

- **Quantity Limits.** For some medications, your plan only covers up to a certain amount over a certain length of time. For example, 30 mg a day for 30 days.
- **Step Therapy.** Certain high-cost medications are part of the Step Therapy program. Your plan doesn't cover these medications until you try one or more generic and/or preferred brand medications first (unless you get prior approval from Cigna).<sup>4</sup>

### Save money by choosing a generic.

Under your plan, you'll pay more if you choose to fill a brand-name medication that has a generic equivalent available (and your doctor's OK with you using the generic). You'll pay your plan's brand copay or coinsurance plus the difference in cost between the brand-name and the generic medication.<sup>5</sup> Consider using a generic. It has the same strength and active ingredients and work in the same way as the brand-name medication – but costs up to 85% less.<sup>6</sup>

### Make life easier. Fill your maintenance medication in a 90-day supply.

Your plan includes a program called Cigna 90 Now<sup>SM</sup>, which makes it easier for you to fill the medication you take on a regular basis to treat an ongoing health condition.

- **If you choose to fill a 30-day supply**, you can use any retail pharmacy in your plan's network. You have the option of switching to a 90-day supply at any time.
- **If you choose to fill a 90-day (or 3-month) supply**,<sup>7</sup> you can use select in-network retail pharmacies that are approved to fill 90-day prescriptions. If it's more convenient, you can use Express Scripts<sup>®</sup> Pharmacy, our home delivery pharmacy. With a 90-day supply, you'll make fewer trips to the pharmacy for refills. And you're more likely to stay healthy because with a larger amount on-hand, you're less likely to miss a dose.<sup>8</sup>

### There are thousands of retail pharmacies in your new network.

Your plan's network includes local pharmacies, grocery stores, retail chains and wholesale warehouse stores – all places where you may already shop.

- All retail pharmacies in your plan's network can fill 30-day prescriptions, and select pharmacies can fill 90-day prescriptions.
- Starting January 1<sup>st</sup>, log in to the **myCigna** App or **myCigna.com** and click on "Find Care & Costs" to find a pharmacy near you. Or, go to **Cigna.com/Rx90network**.

### Consider using Express Scripts<sup>®</sup> Pharmacy, our home delivery pharmacy.

The difference in cost between the brand-name and generic will not apply.
