

CopayAssist Program Highlights

Access to high-cost medications for no / low cost to you.

As a participant in your company health plan, you have access to a new program that has been incorporated into the pharmacy benefit plan administered by US-Rx Care called the CopayAssist Program.

What Is CopayAssist?

CopayAssist is a program that utilizes funding available through drug manufacturers to cover a significant amount of the cost for hundreds of high-cost medications. In the past, pharmacies may have made copay assistance available to some plan participants, but the CopayAssist program ensures all eligible members can take advantage of copay subsidies through drug manufacturers when available.

Enrollment

If you have been prescribed a medication eligible for funding through the CopayAssist program, you will be contacted by US-Rx Care to educate you on the details of the program and to assist in the enrollment process. Please note, that if you are taking a medication eligible for the CopayAssist program and choose not to participate, your medication out-of-pocket cost under the plan will increase. Therefore, it is important that you engage with US-Rx Care when contacted to enroll.

The Benefits For You

When US-Rx Care is able to utilize manufacturer copay assistance for a medication, your out-of-pocket cost is reduced to zero (or, in a few cases a low amount required by the manufacturer, e.g. \$5 or \$10). Please ensure that your main contact phone number is current with the Benefits Office so that US-Rx Care can reach you in a timely fashion when needed.
